- ✓ **Full Stack Development  
( Dot Net & React JS )**
- ✓ **Mobile App Development  
( Dot Net & MAUI )**
- ✓ **Azure DevOps**
- ✓ **Power BI**

**Graduates who completed their studies after 2019 are eligible to apply**

S.NO	COURSE	DURATION	RATE ( per month )	
			ONLINE	OFFLINE (At our office)
1	FULLSTACAK DEVELOPMENT (DOTNET + REACT JS)	6 MONTHS	10,000/-	20,000/-
2	MOBILE APP DEVELOPMENT (DOTNET + MAUI)	6 MONTHS	10,000/-	20,000/-
3	DEVOPS	2 MONTHS	10,000/-	20,000/-
4	POWER BI	1 MONTHS	10,000/-	20,000/-
5	QA MANUAL	1 MONTHS	10,000/-	20,000/-
6	QA AUTOMATION	2 MONTHS	10,000/-	20,000/-

- ✔ GSS Tech will provide Technical Assistance for up to One Year until you get a Job
- ✔ Flexible Payment options are available
- ✔ Scholarships are available based on your academic percentages and the entrance test conducted by GSS

## ✔ Program Highlights

### ✔ Comprehensive Curriculum:

Dive deep into the world of Web/App development with a structured curriculum covering essential concepts and practical skills.

### ✔ Internship Certificates:

Upon completion, candidates will receive internship certificates, enhancing their credentials and boosting their career prospects.

### ✔ Flexible Online Learning:

Enjoy the convenience of fully online training with 2 hours of live classes every day. Learn from Senior Developers and interact with peers in real-time.

### ✔ Hands-On Experience:

Put your knowledge into practice with daily assignments and a final project. Gain valuable experience by building a real-world application under the guidance of experienced mentors

### ✔ Assessment and Evaluation:

Test your skills with regular mock interviews, weekly assessments, and a comprehensive training exam after 3 months to assess your readiness for the project phase

**Academic Excellence Discount**

Score 75% or above in your most recent degree and get a **15% Discount!**

Score 80% or above in your most recent degree and get a **20% Discount!**

## GSS Coding Camp

**VS**

## Traditional Training Institute

Training conducted by in-house developers who work daily on international projects

**Training Quality**

Training provided by instructors with minimal or no real-world coding experience

Full-day office schedule in a professional environment

**Learning Environment**

Classroom and lab settings without Real developers around

Small batches with only 6 students, ensuring personal attention

**Class Size & Attention**

Large classes with hundreds of students leading to minimal individual attention

Emphasis on all-round development including communication skills and real-life project experience

**Skill Development**

Focus on theoretical training, similar to an extension of college

Practical training on how to handle software project tasks

**Training Focus**

Training geared towards passing interviews

Training with real examples and daily problem-solving experiences faced by developers

**Practical Experience**

Large-scale training sessions with little focus on practical, everyday coding challenges

Opportunities to interact with developers who have already secured jobs

**Networking Opportunities**

Surrounded by fellow learners in a traditional classroom setting without an office atmosphere
